Summary

I take customer software from discovery through deployment and support. My experience includes API and data integrations, tenant-aware access, operational automation and delivering tools for the people who use them.

Skills

- TypeScript, Next.js, Node.js
- MCP, OAuth
- PostgreSQL, Docker
- Monitoring, diagnostics

Professional Experience

Founder / Product Engineer / Systems Lead

Technomancy IT LLC

Present

- Scope, build and support customer software from an incomplete requirement through production and on-call support.
- Build access-controlled integrations across SaaS tools and internal systems, including Slack, Google Workspace and Atlassian.

Senior Systems Engineer / Datacenter Architect

Front Range Internet Inc.

2015 - 2020

- Developed and replaced billing software and operated hosted PHP and JavaScript services.
- Built diagnostics for operators, handled customer escalations and brought implementation context into production troubleshooting.

Systems / Software Engineer

Office Evolution

2014 - 2015

- Built a front-desk portal so receptionists could resolve everyday Wi-Fi issues without logging into the network gear.
- Automated router and firewall setup with Node.js and built Linux routing that applied each customer office’s access and bandwidth rules.

Network & Systems Engineer

PlumChoice / Everon

2012 - 2014

- Supported client networks and endpoints, handled escalations and built reusable diagnostics for recurring support issues.
- Worked with clients and service teams through incident handoffs and troubleshooting.

Infrastructure and Systems Focal

IBM

2010 - 2012

- Coordinated infrastructure changes and incidents across enterprise application and infrastructure teams.
- Wrote Perl, Bash, VBA and PHP scripts and built an internal backup tool used to reduce licensing costs.

Selected Projects

NuPrice

Client engagement

2019 - 2021

- Built and operated a marketplace repricing product that used marketplace and competitor data to apply customer-defined rules and automate pricing decisions.

Technomancy IT Platform

Independent product

- Built a TypeScript, Next.js and PostgreSQL platform linking support, CRM, scheduling, billing and infrastructure telemetry with separate client and staff access.

Education

Front Range Community College

Computer Science coursework

2011 - 2013

Certifications and Training

CompTIA A+ | CompTIA | Earned

CompTIA Network+ | CompTIA | Earned
